This was the second Hargrave project for this owner (his third, a new 135' Hargrave in nearing completion) and really pushed the envelope at the yard. Every piece of hardware was sourced by him personally and the interior is both beautifully sculptural and extremely functional. Generously appointed with African mahogany hardwoods throughout the interior as well as marble and granite from South America, the yacht has that clean modern crisp feel that Italian designs are noted for. Her fly bridge deck is enormous and is perfect for families that follow the sun. She is powered Twin CAT C-30 engines rated at 1550 hp and offers a 4 stateroom layout with excellent crew accommodations. For more information go to www.hargrave.org/dream
